Irving ISD · 2025–26 Campus Teacher of the Year & District Finalist

972-750-1514 · luceroelisha@icloud.com

SUMMARY

Tech educator, curriculum designer, and technical builder with a foundation in computer and cognitive science (B.A. Cognitive Systems), where I studied how cognition is modeled in machine learning and intelligent systems. I design career-readiness and technology curricula that move students into real project work; I build tools to rectify systems that feel too brittle, slow, or indifferent to how people move through their day.

SKILLS

Languages & Frameworks: HTML/CSS, JavaScript, Python, SQL, Flutter/Dart, Flask

Infrastructure & Systems: Docker, Linux, Google Workspace, web hosting, DNS/domain administration

Data & Tools: Power Apps, SharePoint, Power BI, SPSS, Jira, Apps Script automation & local LLM deployment

Creative & Media: Adobe Creative Suite; Final Cut Pro, CapCut, Logic Pro, Riverside

EXPERIENCE

Bowie MS | Innovative Technology & Publication

August 2023 – Present · Irving, TX

- Design and teach project-based CAD, Immersive Media, and AI/Robotics courses grounded in real-world problem-solving and student voice.
- Lead student media production across yearbook, journalism, and campus broadcasting.
- Named 2025–26 Campus Teacher of the Year and District finalist for equity-focused, student-centered instruction.
- Launched campus Student Council and first CTSO, creating leadership and state/national competition pathways for 100+ students.

Irving ISD STEM Camp | Administrator & Facilitator

Summer 2026 · Irving, TX

- Directed staff and curriculum for a 350-camper, four-grade STEM program spanning robotics, digital fabrication, and coding; designed the systems for student placement, staffing, supplies, and scheduling.
- Built the camp's operational tooling: custom HTML/CSS attendance tracking backed by Google Apps Script, Python scripts that automated badge generation, rosters, and mail-merge for parent communications.
- Designed a unified SharePoint and Power BI system to serve as a single source of truth for camp administration.

Bowie MS | 8th Grade ELAR/ESL Teacher

August 2021 – July 2023 · Irving, TX

- Taught Honors RLA/ESL in a high-performing PLC, supporting literacy growth and language development.

The Haven | Systems Administrator

June 2021 – August 2022

- Administered technical infrastructure for a distributed digital arts platform, including Google Workspace shared drives, user access roles, domain registration, DNS routing, and website launch support.
- Led project coordination through Zoom facilitation, Jira/Atlassian workflow management, ticket tracking, and team training/onboarding.

Earlier: YMCA Childcare Group Leader, Johnson MS Substitute, and UBC Teaching Assistant (2018–2021).

PROJECTS

IDK Can You? K-12 hall-pass and device-checkout app (Flutter + Flask): time limits, device history, and accountability without interrupting the lesson; published on Google Play. idkcanu.com

CCE Curriculum. 36-week Career & College Explorations curriculum. elbrielle.github.io/cce-curriculum

FrameDeck. Chrome extension (Manifest V3) that turns open browser tabs into a hands-free, auto-rotating classroom slideshow. github.com/elbrielle/FrameDeck

Brielle Builds. Founder of a flat-rate DFW PC service offering custom builds, repairs, and home server, NAS, and networking setup for clients. briellebuilds.com
